CALL FOR PHD APPLICATIONS

33 POSITIONS

IMT School for Advanced Studies Lucca's **multidisciplinary PhD Programs** offer a unique and characteristic patrimony of competences within the broad framework of the analysis and management of a plurality of systems. IMT attracts bright students, young researchers and professors through **competitive and transparent** procedures at an international level.

All positions are fully-funded for up to four years (**no tuition fees**), with a possibility of graduating after the third year.

The 32 admitted candidates will receive a **scholarship** (which will amount to 15,343.28 € gross/year), **free housing** in the School's residential campus and free daily access to the **canteen**.

One additional "Marie Skłodowska-Curie Innovative Training Networks" **research grant** will be available for the PhD Program in "Systems Science", track in "Computer Science and Systems Engineering", for the project "Multi-field and multi-scale modeling of fracture for renewable energy applications".

All students will also have free access to the **library**.

Candidates can apply if they receive their undergraduate degree no later than October 31st, 2020.

Classes will start on November 2nd, 2020.
